June 19, 2013

Ernest G. Burgess
County Mayor, Rutherford County

Reference: TOSHA complaint and Inspection

Dear Mayor Burgess:

Rutherford County Government was recently informed, by the Tennessee Department of Labor and Workforce Development, Occupational Safety and Health Administration (TOSHA), of a complaint listing serious safety and health hazards at the County Landfill and Convenience Centers. The complaint dated April 3, 2013 listed fifteen concerns of the filing party. TOSHA followed up on the complaint on April 19, 2013 when they conducted and on-site inspection of the Landfill and selected Convenience Center locations.

Following the inspection only three of the original fifteen concerns were cited as a violation under the OSHA standards. One concern, smoking in the shop area, is not an OSHA violation and was referred to another department for further investigation. During the April 19th inspection the TOSHA inspector observed additional violations not listed in the initial complaint but were included in the final report. The final report contains nine serious and three non-serious violations. All violations have been corrected and the abatement verification forms filed prior the required completion date of June 22, 2013.

Sincerely,

Dan Goode
Safety Coordinator
Rutherford County Government

The Honorable Ernest G Burgess
County Mayor, Rutherford County
County Courthouse Room 101
Murfreesboro, TN 37130

ATTN: Dan Goode, Safety Coordinator

Dear Mayor Burgess:

On April 19, 2013, our compliance officer, Bridgett McBride, conducted an investigation of Rutherford County-Landfill, as a result of a complaint received in or office. The results of our inspection of the complaint items are as follows:

CSHO Response to the Complaint

1. **Complaint-No Hazard Communication Program and No Material Safety Data Sheets book.**

   Response-On the day of the inspection, it was determined that a Hazard Communication Program was developed and implemented. In addition, Material Safety Data Sheets were observed and maintained on the job site. A citation will not be recommended because no employee exposure could be documented for this item.

2. **Complaint-No Hazardous Response Book or Emergency Action Plan.**

   Response- On the day of the inspection, the CSHOs observed an Operation Manual and Construction Requirement for Sanitary Landfill and a Rutherford County Emergency Procedures Flip Chart that employees would use in the event of an emergency. A citation would not be recommended for this item.

3. **Complaint-No Lockout/Tagout Programs.**

   Response: On the day of the inspection, it was determined that there was not a lockout/tag-out program developed for employees who services and maintenance a Back hoe, Bull Dozer and Trash Compactors. A citation would be recommended for this item.

4. **Complaint-No Safety gear such as reflective vest; safety glass or goggles; gloves; hard hats (note: heavy equipment operators are allowed to wear tennis shoes at the landfill).**

   Response: On the day of the inspection, CSHO's observed personnel protective equipment (ppe) such as reflective vest, safety glasses, goggles , gloves and hard hats. An employee was observed wearing steel toe boots on the job site. During interviews both employer and employees both stated that employees are to wear their ppe and steel toe shoes in the work shop area and when operating heavy equipment. A citation will not be recommended because no employee exposure could be documented for this item.

5. **Complaint-Open containers of chemicals and mixing of materials on shelf very dangerous.**

   Response: On the day of the inspection, there were no open containers observed of chemicals and mixing of materials on shelf that were very dangerous. During the employee interviews, it was revealed that they do not mix any chemicals or materials. A citation will not be recommended because no employee exposure could be documented for this item.

6. **Complaint-No chemical training.**

   Response: On the day of the inspection, it was determined that employees received Hazard Communication and Hazardous Material training on September 17 and 20, 2012. During the employee interviews, it was revealed to the CSHO's that they received training on chemicals through the Hazard Communication and Hazardous Material training. They indicated that all training was conducted by their employer. The employer stated that employee training was set up on a computer base time line training system. The employer stated that the system informs them of when one of the various safety or health topics that employees need to be trained on. In addition, the system documents their training. A citation will not be recommended because no employee exposure could be documented for this item.

7. **Complaint-No eye wash, no eye wash station or shower.**

   Response: On the day of the inspection, the CSHOs did not observed any corrosive chemicals on the jobsite to determine if an eye wash station or shower would be needed. A citation will not be recommended because no employee exposure could be documented for this item.

8. **Complaint-No one trained in first aid and blood borne pathogens.**

   Response: On the day of the inspection, the CSHOs observed a first aid kit inside the Work Shop area of the Rutherford County-Landfill. It was indicated that employees were not trained on first aid. The employer stated that the closest emergency medical center was less than 3 minutes from the jobsite. The landfill being near an emergency medical center there is no requirement for a person to be trained on first aid according to the standard. The employer stated that Furthermore, employees received annually training on blood borne pathogens by the employer. A citation will not be recommended because no employee exposure could be documented for this item.

9. **Complaint-No employee training conducted.**

Response: During the inspection, it was determined that employee training was conducted. The employer provided documentation of employee training to the CSHOs. In addition, employee interviews revealed that the employer conducts employee training on various safety and health topics annually. A citation will not be recommended because no employee exposure could be documented for this item.

10. **Complaint-No Safety Work Rules are enforced.**

Response: During the inspection, it was revealed to the CSHOs that Safety Work Rules were enforced. The employer provided a copy of the rules to the CSHOs during the inspection. A citation will not be recommended because no employee exposure could be documented for this item.

11. **Complaint-No "Smoking Rule" is not enforced.**

Response: During the inspection, it was revealed that an employee had been smoking inside of the main office. There was no smoking sign posted. During the inspection, the employer stated that he was not aware of the No smoking law. The CSHOs informed the employer that the Non-Smoker Protection Act went into effect on Monday, October 1, 2007. The Department of Labor & Workforce Development along with the Department of Health has the responsibility to enforce this Act. This item will be recommended to the TOSHA's Legal Department for further investigation.

12. **Complaint-Water heater sparks when you walk by it.**

Response- On the day of the inspection, the CSHOs observed the water heater and walked by it. The water heater did not spark. During the interviews, both the employer and employees stated that they were not aware of the water heater ever sparked when a person walk by it. A citation will not be recommended because no employee exposure could be documented for this item.

13. **Complaint-OSHA Poster not updated**

Response: On the day of the inspection, OSHA poster was observed updated and posted inside of the Work Shop Area of the Rutherford County-Landfill. A citation will not be recommended because no employee exposure could be documented for this item.

14. **Complaint-No Carbon Monoxide and welding signs.**

Response-On the day of the inspection, there was no carbon monoxide or welding signs posted inside of the Work Shop Area of the Rutherford County-Landfill. A citation would be recommended for this item.

15. **Complaint-No respirator protection.**

Response- On the day of the inspection, it was determined that Rutherford County had a respirator program established. The employees at the Rutherford County-Landfill are not exposed to any high toxic or corrosive chemical on the jobsite that would require them to wear a full-face respirator. They wear P95 NIOSH 3m 8577 Dust Mask and MSA Safety Works Dust Mask for Non- Toxic Dust voluntarily. The employer and employees both indicated that dust masks were worn voluntarily. A citation will be recommended because the employer did not informed employees of the information contain in Appendix D.

Our goal is to help you provide a safe and healthful work environment for your employees. We are confident this activity will facilitate the continued growth of your safety and health program and help to reduce workplace injuries and illnesses.

During this visit violation(s) of the OSHA standards were observed in the areas we inspected. These violation(s) do not imply that your program is ineffective; however, they are an indication of a program deficiency in some aspect of your safety and health program. We have included with this report a "Notice of Unsafe or Unhealthful Working Conditions" that contains **12 (twelve)** violation(s) observed during this visit. Please post a copy of this Notice for your employees to view for a period of at least three (3) working days, or until all alleged violation(s) are corrected. We will need your reply as to the corrective action taken or planned by the abatement date indicated on the Notice.

Enclosed are copies of the Abatement Certification Form with instructions. This form should be used to report the action you take to correct the violation(s).

Your file cannot be closed until we have documentation of correction of each violation. Please respond promptly.

If we can assist you in any way, please let us know.

Sincerely,

Ronald Rich

Notice of Unsafe or Unhealthful Working Conditions

To:
The Honorable Ernest G Burgess
and its successors
County Mayor, Rutherford Co
County Courthouse Rm 101
Murfreesboro, TN 37130

Inspection Number: 317117331
Inspection ID: X7219-052-2013
Inspection Date(s): 04/19/2013
Reporting ID: 0454732

Inspection Site:
Rutherford County-Landfill
6000 Landfill Road
Murfreesboro, TN 37130

The violation(s) described in this Notice are alleged to have occurred on or about the day(s) the inspection was made unless otherwise indicated within the description given below.

ATTN: Dan Goode, Safety Coordinator

On April 19, 2013, a Complaint inspection of your establishment/workplace was conducted by Bridgett McBride as a result of a Complaint received in our office. The enclosed report contains the results of that visit. The report may contain violation(s) of standards and/or rules promulgated under the provisions of this Code. These alleged violations must be corrected on or before the date shown beneath each violation description listed thereon.

EMPLOYER RESPONSIBILITIES

The Department of Labor and Workforce Development Rules require this Notice (or a copy) to be immediately posted in a prominent place at or near the place where each alleged violation occurred. The Notice shall remain posted until the alleged violation is corrected or for a minimum of three (3) working days whichever is longer.

Employers must notify the Manager of Public Sector Programs, Division of Occupational Safety and Health, when correction of each alleged violation(s) has been completed. Enclosed are copies of the Abatement Certification Form with instructions for reporting the action you have taken to correct the violation(s). For items identified in the Notice as "Abatement Verification Required", the employer must certify that the items have been abated. This certification requires additional documentation such as photographs, receipts, work orders, etc. be provided to verify the corrective action taken. You must notify the Manager in writing of the date, the nature of the corrective action taken and a statement that affected employees and their representatives have been informed of the correction.

EMPLOYER RIGHTS

You may request an informal conference to discuss the alleged violation(s) with the Manager of Public Sector Programs. Informal conferences must be held within 20 days of the receipt of this Notice. To schedule an informal conference, call or fax the Manager of Public Sector Programs at telephone (615) 741-2793 or fax (615) 741-3325.

You have the right to request an extension of the correction period(s) when you cannot correct the alleged violation(s) by the prescribed correction date because of circumstances beyond your control. For information needed in a request for an extension of correction, contact the Manager of Public Sector Programs.

For additional information, you may direct such requests to the Administrator, Tennessee Department of Labor and Workforce Development, Division of Occupational Safety and Health at the address above, or to the, Manager of Public Sector Programs, Division of Occupational Safety and Health at (615) 741-2793.

Notice of Unsafe or Unhealthful Working Conditions

Company Name: Rutherford County-Landfill
Inspection Site: 6000 Landfill Road Murfreesboro, TN 37130

Violation 1 Item 1 Type of Violation: **Serious**

29 CFR 1910.23(c)(1): Open sided floor(s) or platform(s) 4 feet or more above the adjacent floor or ground level were not guarded by standard railings.

On April 19, 2013, a platform that measured approximately 12 feet above ground level was not guarded by standard railings. The platform was used as an overhead storage and it was located in the Work Shop of Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 2 Type of Violation: **Serious**

29 CFR 1910.134(c)(2)(i): The employer did not provide voluntary respirator users with the information contained in Appendix D of the Respiratory Protection Standard ("Information for Employees Using Respirators When Not Required Under the Standard").

On April 19, 2013, the employer did not provide information contained in Appendix D of the Respiratory Protection Standard to employees who voluntarily use Dust Mask.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 3 Type of Violation: **Serious**

29 CFR 1910.212(b): Machine(s) designed for fixed location(s) were not securely anchored to prevent walking or moving:

On April 19, 2013 the 15" Westward Drill Press was not anchored to prevent walking or moving. The drill press was located in the Work Shop area of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 4 Type of Violation: **Serious**

29 CFR 1910.215(a)(2): Abrasive wheel(s) used on grinding machinery were not provided with safety guard(s) which covered the spindle end, nut and flange projection.

On April 19, 2013, the 8" DeWalt Bench Grinder, DW756, 3/4HP, 3450 RPM, serial # 200413-YL1487 did not have a spindle guard in order to guard against the rotating abrasive wheel. The bench grinder was located in the Work Shop Area of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 5 Type of Violation: **Serious**

29 CFR 1910.215(a)(4): Work rests were not adjusted too closely to the wheel with a maximum opening of 1/8":

On April 19, 2013, the work rest on a 8" DeWalt Bench Grinder, DW756, ¾ HP, 3450 RPM, serial # 200413-YL1487 was not adjusted closely to the abrasive wheel with a maximum opening of 1/8" from the grinding wheel. The bench grinder was located in the Work Shop of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 6 Type of Violation: **Serious**

29 CFR 1910.215(b)(9): The distance between the abrasive wheel periphery(s) and the adjustable tongue or the end of the safety guard peripheral member at the top exceeded one fourth inch:

On April 19, 2013, there was not a tongue guard on the 8" DeWalt Bench Grinder, DW756, 3/4HP, 3450 RPM, serial #200413-YL1487 in order for it to be adjusted closely to the abrasive wheel with a maximum opening of ¼" from the grinding wheel. The bench grinder was located in the Work Shop Area of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 7 Type of Violation: **Serious**

29 CFR 1910.147(c)(1): The employer did not establish a program consisting of an energy control procedure and employee training to ensure that before any employee performed any servicing or maintenance on a machine or equipment where the unexpected energizing, start up or release of stored energy could occur and cause injury, the machine or equipment would be isolated, and rendered inoperative.

On April 19, 2013, that the employer did not establish a Lockout/Tagout Program consisting of an energy control procedure and employee training before employees performed servicing and maintenance on John Deere 310SG Black Hoe/Front End Loader, Caterpiller Bull Dozer D7R Cat#616 and Trash Compactors.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 8 Type of Violation: **Serious**

29 CFR 1910.1200(f)(6)(ii): Except as provided in paragraphs (f)(7) and (f)(8) of this section, the employer did not ensure that each container of hazardous chemicals in the workplace is labeled, tagged or marked with the following information; Product identifier and words, pictures, symbols or combination thereof, which provide at least general information regarding the hazards of the chemicals, and which, in conjunction with the other information immediately available to employees under the hazard communication program, will provide employees with the specific information regarding he physical and health hazards of the hazardous chemical.

On April 19, 2013, the 1200 gallon diesel and gasoline tanks, located at the Rutherford County-Landfill, were not labeled identifying its contents. Containers of chemicals need to be conspicuously marked with its contents to avoid mixing of chemicals that may react in a hazardous manner.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 1 Item 9 Type of Violation: **Serious**

TDLWD Rule 0800-1-9-.06(2): The employer failed to ensure that work areas in which non-containerized hazardous chemicals are generated or produced as a result of the process or operation taking place in such work area (e.g., welding fumes, carbon monoxide from powered industrial trucks exhaust, etc.) contain a sign or placard identifying the hazardous chemical(s) and appropriate hazard warnings.

On April 19, 2013, the employer failed to post Carbon Monoxide signs and Welding Fumes signs. Welding operations and Gasoline powered equipment is being started inside the building. There were no signs warning employees of the possible dangers from the presence of these fumes and gases located in the Work Shop Area of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

State of Tennessee

Inspection ID: X7219 –052-2013
Inspection Date(s): April 19, 2013
Issuance Date: May 20, 2013

Violation 2 Item 1 Type of Violation: **Non Serious**

29 CFR 1910.22(d)(1): In every building or other structure, or part thereof, used for mercantile, business, industrial, or storage purpose, the load approved by the building official was not appropriately marked and posted:

On April 19, 2013, a load limit sign was not posted on the overhead storage area that was located in the Work Shop area of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 2 Item 2 Type of Violation: **Non Serious**

29 CFR 1910.37(b)(2): Each exit must be clearly visible and marked by sign reading "Exit".

On April 19, 2013, the employer did not ensure that "Exit" sign posted above a door that employees would use in the event of an emergency. The emergency exit door was located in the Work Shop Area of the Rutherford County-Landfill.

Date By Which Violation Must Be Corrected: **June 22, 2013**

Violation 2 Item 3 Type of Violation: **Non Serious**

TDLWD Rule 0800-01-03-.04(3)(b)6: The Summary of Work-Related Injuries and Illnesses (OSHA Form 300A or equivalent) for the previous year was not posted between February 1 and April 30.

On April 19, 2013, the employer failed to post the OSHA Form 300A for the previous year of 2012 between February 1 and April 30th. The employer posted a 2010 OSHA Form 300A in the Work Shop area of the Rutherford County-Landfill.
