Highlighted ones can be sold now. We can sell them on Gov Deals or Public Surplus to the higest bidder. We can set a reserve price at the current value so it has to bring at least what we paid for it or we do not sell. There is a selling fee of 7.5 % on Gov Deals which we would have to bump the reserve price up to make sure we do not lose money on the sale. Gov deals charges the buyer a 5% premium on the highest bid.
