* It is possible that through station consolidation, this purchase can be converted to a tanker.

** Tanker 403 is a shop-made vehicle and therefore is not NFPA compliant.

*** It is possible that through station consolidation this purchase can be converted to a tanker.

With the formation of the RCFR dept, purchases of apparatus for municipalities has ceased.

It is recommended that the two engines assigned to Eagleville VFD be sold to the Town of Eagleville for their appraised value at the earliest opportunity.
