

PLAT NOTES

- The purpose of this plat is to divide Tax Map 123, Parcel 23.00 into four (4) new tracts of record.
- In Tennessee, it is a requirement per "The Underground Utility Damage Prevention Act" that anyone who engages in Excavation must notify all known underground utility owners, no less than three nor more than ten working days of their intent to excavate. A list of these utilities may be obtained from the County Register of Deeds. Those utilities that participate in the Tennessee One Call system can be notified by calling toll free 1-800-351-1111.
- Underground utilities shown were located using available aboveground evidence, and also from information obtained from the respective utility companies. The existence or nonexistence of the utilities shown and any other utilities which may be present on this site or adjacent sites should be confirmed with the utility owner prior to commencing any work.
- It is the responsibility of each builder to design and construct a suitable grading and drainage schema which will convey surface water, without ponding in the lot or under the structure, from his structure to the drainage system constructed by the subdivision developer.
- Parcels may be subject to additional easements, and/or restrictions, by record or prescription, that a complete title search may reveal.
- Public utility and drainage easements where shown hereon are intended to indicate an easement for construction, operation, and maintenance of public utilities and drainageways, including, but not limited to, sanitary sewers, forcemains, water lines, telephone signal conduits, electric conductors, drainage pipes, and natural gas lines.
- All surrounding parcels are zoned RM per the Rutherford County Regional Planning Commission (R.C.R.P.C.).
- The soil site type and locations shown hereon are taken from field information provided by Lonnie Norrod P.S.S. #61 dated 11-23-2015 Huddleston-Steele Engineering, Inc., assumes no responsibility for the accuracy or completeness of the soils information provided hereon.
- There is not a fire hydrant within 1000 feet of subject property.
- A 30" D-PE-3B Concrete Headwall Type U with street grates will be required on Lots 2-4.
